About the Mustang Special Utility District

The Mustang Special Utility District (SUD), based in Aubrey, Texas, has been committed to providing a safe, quality water supply and wastewater services to northeast Denton County for over 50 years. Initially established in 1966 as the Mustang Water Supply Corporation to serve a mostly rural area with just 50 connections, it later converted to an SUD as it evolved and grew with the region, thus becoming a Texas political subdivision. Today, the District serves more than 12,500 connections and roughly 30,000 customers in the surrounding communities and is recognized by the Texas Commission on Environmental Quality as a Superior Public Water System. The District's current system consists of 10

groundwater wells, 2.8 million gallons per day of surface water capacity and capacity in three wastewater plants. For additional information, visit mustangwater.com.
